

Harvest experience

An unforgettable day along the beautiful vineyards in the bolognese hills

You will have the opportunity to visit a beautiful winery and learn all working processes, the agricultural and oenological techniques.

And then... like in the old ages you'll have to collect as many kilos of grapes as you can... paying attention to collect them properly! Your score will depend on quantity and quality of the job done! The more enthusiastic part? The grapes will be pressed with your own feet!

A wonderful barbeque in the open terrace will follow the activity with a tasting of excellent wines!
